I am going to share with you what Jesus (Yashua) told his followers regarding the creation of non-human entities and the creation of the various human hybrid races. The article I

am taking this information from is the “Sophia Pistis” document, which can be found in the Nag Hammadi Scrolls.

What Jesus (Yashua) taught regarding the creation of these entities and the human race in the “Sophia Pistis Story” is complicated however; the story goes something like this. The non-human entities known as the “WATCHERS” aka “Aeons” were what we might refer to today as the creating angles. These creating angel agents were lead by Jesus (Yashua) in the process of creating the original human race. At some point after the earth and everything on it was created, a group of these “Watcher Aeons” decided to form a mutiny by leaving the ranks of the WATCHERS. When they did that they lost their looks and could no longer create human beings. To create human beings for themselves to rule over they had to resort to cloning and artificial insemination. This was the cause of their “FALL FROM GRACE.” and their hybrid bloodlines they created. The WATCHERS then became known the “Fallen Angels.” The story of their fall is being told in Genesis 6. Today I refer to the “Fallen Angels” as the Nordic Aryan Alien “Fallen Watchers.” They have many names associated with them.

The hybrids born to these Nordic Aryan Alien “Fallen Watchers” were defective look a likes. Some were the giant Nephilim that have been referred to in all ancient legends including Genesis Chapter 6 in the Old Testament. These evil entities we WRONGLY REFER TO ALIENS TODAY, tampered with human DNA changing the lives our prehistoric ancestors, their health and their DNA codes. In time through inner breeding all humans carry defective DNA or CONTAMINATED DNA.

What their DNA tampering added to our original DNA strand was anything but perfect. Every life form on Earth carries a genetic code for these extraterrestrials today and it is referred to as our **E.T. Junk DNA.**

All ancient legends tell us that the original human beings on

earth were perfect in every way. These legends tell us that ORIGINAL MAN DID NOT GET SICK AGE OR DIE. They had abilities similar in nature to what Jesus (Yashua) exhibited on earth. Among other talents they possessed was the ability to telepathically communicate. They are said to have enjoyed a full life and lived in a beautiful area of our world known as the “Garden.” This “Garden” was said to have been in the north in a place the ancients called Hyperborea. Today the Hyperborean region has moved to the North Pole and is for the most part under ice and snow, which is one of the many reasons our scientist are not able to track DNA back to our original Scandinavian ancestors. I say this because all dark hair dark eyed, red hair green eyed tribes we alien human hybrid races. Their Scandinavian Mitochondria DNA was fused with alien DNA and "OTHER DNA."

The life our Scandinavian Mitochondrial Mother lead would have been a perfect life according to our standards today until these evil FALLEN WATCHERS entered our three dimensional world and began to abduct, rape and contaminate human DNA. This became known as the **FALL OF MANKIND**.

Once again, the a group of the original WATCHERS that fell became the Nordic Aryan Alien “Fallen Watchers” their bodies were in a “Fallen State” and so was their DNA. The DNA they added to our original DNA strand was contaminated and degraded. Every life form on Earth carries a genetic code for their extraterrestrial cousins.

What E.T.'s appear to have added is non coded DNA. DNA that is not coded with a protein. The non-coded DNA acts as a regulator for our cells. It turns our cells on and off causing all sorts of illnesses and eventually death.

Much of our genome has no apparent purpose. Is it so-called “junk DNA” or do we simply not understand it? (Credit: ktsdesign/Shutterstock)

If protein-coding sequences are the notes of a symphony, then some of the non-coding sequences act like the conductor, influencing the pace and repetitions of the masterpiece."

“A lot of human diseases is associated with these regulatory sequences,” Ahituv said. “For example, in genome-wide association studies for common diseases, such as diabetes, cancer and autism, 90 percent of the disease-associated DNA variants are in the noncoding DNA. So it’s not a gene that’s changed, but what regulates it.”

All human beings today have an alien genetic noncoding sequence, that when counted totals about 97% of our human DNA. E.T. Junk DNA is a non-coding sequence, which was added into our DNA by these evil entities we wrongly refer to as aliens today which is why we refer to it as **"Extraterrestrial Junk Genes" (E.T. Junk Genes).** These “extraterrestrial junk genes” are strung in with our human

DNA in a sort of dormant stage. They were strung in place as if they were along to "enjoy the ride" with our hard working active genes that have been passed down from generation to generation from our original human ancestors. There is evidence that these E.T.'S disposed of or deactivated most of our "Big Code", leaving us with only 3% of our original working human DNA. By eliminating segments of our "Big Code" they disabled our cells in ate ability perfectly reproduce aka duplicate themselves. Instead of making exact copies of our cells our bodies now make damaged cells that our bodies to get sick age and die.

Some people refer to these evil entities (we wrongly refer to as aliens today), as higher forms of life because they are so technically advanced in certain areas. WE SHOULD ALL KNOW BETTER TODAY. We need to realize that they're FALLEN DNA SEQUENCES CONTAMINATED THE HUMAN GENOME. They may be masters of hidden technology that mankind has been slowly rediscovering but they are really parasites that hate human beings and have compromised our physical and mental well being by contaminating our DNA.

Our E.T. Junk DNA is proof that these evil entities made contact with 'Earth humans' thousands upon thousands of years ago. The New Age and those promoting the "Alien Agendas" claim that these evil entities created human beings. Despite what those promoting the "Alien Agenda" say, our DNA codes indicate that they manipulated human DNA instead, THEY DID NOT CREATE IT after the fall they lost the knowledge of how to create life. To create life then they had to use artificial insemination. This is why 85% of the human race has Rhesus Monkey protein encoded in their DNA. We call this "Monkey Blood." The Sumerian legends tell us that they spliced human DNA with Rhesus Monkey DNA to create different hybrids.

There is more bad new in the E.T Junk DNA codes they gave us. By encoding their DNA and other DNA into the human

genome this process cause human illness and death.. These alien cells in our DNA**,** produce human conditions such as cancer that has it's own veins, arteries, and it's own immune systems that vigorously resists all our anti-cancer drugs. This inbreeding also produce deformities and disabilities in human beings. Scientists are now telling us that these E.T. Junk DNA strands have been in-planted in humanity by what the refer to as MANIPULATIVE EXTRATERRESTRIALS. Scholarly groups at the forefront of investigative suggest that E.T. Junk DNA may not have been added to human DNA as a "building block for life" but to act rather as a "parasitic inhibitor" and "regulator." These scientists believe that Manipulative Extraterrestrials may have sought to genetically manipulate and control humanity through DNA.

THIS IS NOT GOOD NEWS.

Those people who promote the New Age and “Alien Agendas” believe that these evil entities we wrongly call aliens today, created mankind yet, as I mentioned above, that is not what Jesus taught. He taught that after the fall, these entities did not have to ability to create human beings and that they had to resort to rape and DNA in coding to create human hybrids. Even the Old Testament attests to their INABILITY to create life. Here is what scientists believe.

OUR DNA CODE IS A:

Many scientists have documented that over 95% of Human DNA does not have a known purpose. This DNA has been colloquially referred to as "Junk DNA".

Up to 97% of the human genetic information (DNA) is seemingly needless, repetitive "junk" - only about 3% is known to generate proteins, deserving the name "gene". The rest used to be called "junk DNA", lately renamed as "non-coding introns", sometimes labelled by the mysterious, though not very explicit description that these self-similar strands "regulate gene expression". LINK

However, other researchers have not been content to simply classify this predominant part of DNA as "one of life's mysteries". Scholarly groups at the forefront of investigative researchers are gathering details which suggest that DNA may not substantively exist as a "building block of life". Rather, it appears that the substantive function of DNA is to act as a "parasitic inhibitor" and "regulator" of life on planet Earth.

Dr. John Lash documents, for example, in metahistory.org:

Recent work by Russian biologist Piotr Garjajev and some Russian linguistic experts suggests the same thing, and, more specifically, this research may show that junk DNA, rather than being a discard, is “a computer hologram that works with laser-type radiations.” In short, DNA is an extraordinary generator of perceptions, an instrument of virtual reality.

By accepting the link between DNA and emotional and mental activities, we may begin to imagine DNA as a complex program that directs the life process (regulating our metabolism, for instance), but impedes our consciousness from complete manifestation. LINK

Research testimony that includes ancient representations, suggest that **DNA was implanted in humanity by Manipulative Extraterrestrials.** The fact that over 95% of DNA does not support vital biological living processes suggest that it is conceivable for biological life to exist without any DNA.

More than 95 % of all DNA, had been first called "Junk DNA" by molecular biologists, because they were unable to ascribe any function to it. They assumed that it was just "molecular garbage". But, if it were "junk", the sequence of the "syllables", i.e. the nucleotides in DNA should be completely random. However it has been found that the sequence of the syllables is not random at all and has a striking resemblance with the structure of language (ref. Flam, F. "Hints of a language in junk DNA", Science 266:1320, 1994), that is alien to humanity. Scientists now generally believe that this DNA must contain some kind of coded information.

You might wonder, what understanding of our human origins could account for the parasitic implanting of DNA into biological life on planet Earth? Indeed, this further inspires the question; who are we? What are our origins; why do we exist' and from that context, where are we going? For starters, it is vital that we as humanity begin to question the

"understandings" of reality, that have been presented to us, by elites who have been documented time again, for spinning a "web of deceit". In this context, it is also correspondingly vital to critically consider prospective new insights, irrespective of how much the Establishment responds with denial.

The existence of historical and on-going Extraterrestrial contact with Earthbound humanity, has been at the forefront of this denial. Indeed, the alleged contactees of both Manipulative and Ethical Extraterrestrials offer insights into a context of genetic manipulation within biotic life on Earth.

The article titled "Scholars suggest Extraterrestrial-like DNA fractals floating in the Human Gene Pool" explored fractals as evidence that Manipulative Extraterrestrials may have sought to genetically manipulate and control humanity. LINK. A group of researchers associated with Fractogene.com document these apparent similar artificial "fractal signatures" across different biotic life forms on Earth:

This uncertainity if "junk DNA" is really "junk", that caught some scientists by surprise, is now history. Indeed, scientists were never quite sure that any part of DNA could be discarded outright, and even the question was raised if introns might play a role in evolution, see Mattick, 1994., Klyce, 2002). The bombshell of the 5th of December issue of the highly reputed Nature 420, 509 (2002) revealed that the 99% of the genes of the mouse have direct equivalents with the humane genes. What does this mean?

FractoGene's pending patent, conceives life on Earth as being linked to a fractal elaboration of a gene by its introns (the fractal model of Purkinje cell was published by Pellionisz, 1989). In so doing, Fractogene seems to have stumbled upon "introns" as **Manipulative Extraterrestrial signature of the demonic inorganic mechanical intelligence that ancient pagan Gnostic referred to as**

"artificial man" or the "archons". Introns, derived from the term "intragenic regions" and also called intervening sequence (IVS), are DNA regions in a gene that are not translated into proteins.

Many studies have documented evidence that introns are either directly or indirectly involved in cancer causation, and other diseases. Mutations in the introns have been specifically linked to cancerous "tumorigenesis progression."

Among the many other intron genetic variations that have been linked to cancer (in this case lung cancer) is a K-ras intron variation involving tandem repeats in the H-ras 3'-untranslated region. Mutations in introns may influence neoplasm development because mutations that occur in introns (or in the DNA sequences that flank the gene) can affect the various steps required for normal expression of the gene even though the intron codes may not be detectable by studies of the protein product of the gene. If the defective expression of a gene product is a tumor suppressor gene or a proto-oncogene, cancer may result.
